

NetNames domain portfolio management interface

Platinum Manager is NetNames Platinum Service online domain portfolio management interface. It offers an interface to your organisations entire portfolio of domain names and gives you control of your portfolio using dynamic search and filtering capabilities. Platinum Manager does not require plug-ins or downloads, offers 24 hours access to your domain portfolio 24/7 is intuitive, fresh and easy to use.

Platinum Manager allows you to;

- ▶ **Manage your domain names in line with your business**
Create and manage you domain name portfolios in sections that align with your business' brands, departments or organisational structure.
- ▶ **Protect your portfolio with controlled access levels**
Grant multiple users access to the whole portfolio, or to specified sections. Users can be set up with 'read only' access, or with read/write' capabilities where required. You can then use the new 'order audit trail' to keep updated on who has placed which orders and when they were placed.
- ▶ **Place registration orders instantly**
Place new registration orders and transfer in requests directly through the interface. This process will include a live availability search and automatically add any orders to your next invoice.
- ▶ **Manage DNS records**
Modify your A Record, C-Name, MX Record, TXT and SOA entries.
- ▶ **Monitor 3rd party registrations**
Platinum Manager is registrar independent. This allows greater visibility to your organisation of domain names registered by third parties, such as competitors or potential cybersquatters.
- ▶ **Make 'bulk' updates to your portfolio**
Make 'bulk' changes to multiple domain names in one go. Areas of your domain name portfolio that can be changed in bulk include;
 - ▶ Email and web forwarding.
 - ▶ Contact detail updates for legal owner and technical and admin contacts.
 - ▶ Name server.
- ▶ **Watch specified domain names**
By simply selecting the domain names you want to watch you can activate a watch that will notify you via email of any changes made to a domain name's WHOIS details. Name Watch can also be used to proactively monitor for changes to competitors' domains or potential infringements that have been identified.

Additional features include;

- ▶ A multilingual user interface currently available in English, German, French and Spanish.
- ▶ Instant 'audit trail' to show 'who' has ordered 'what', at a glance.
- ▶ Real time auto-population of available WHOIS record information.
- ▶ Automatic notification for you and your NetNames Platinum Service account manager if any domain names are added or removed.
- ▶ Customisation. On request we will insert your organisations logo to make the interface feel like an extension of your own brand to your designated users.
- ▶ Export to excel capability.
- ▶ Wild card searching on domains.

Benefits:

- ▶ Centralised and simple portfolio control will save your administration time and your organisation's money.
- ▶ Section management for portfolio breakdown and management within customer specified groupings i.e by suffix, brand or business unit.
- ▶ Allocate roles and permissions at user level.
- ▶ 24 hours access to manage your organisations entire domain portfolio.
- ▶ As a completely hosted site there will be no impact on your own IT infrastructure.
- ▶ Instant access to register domains and assign them directly to your portfolio.

Contact us to see how Platinum Manager will enable you to have greater domain name management flexibility.
